University of the Arts London rise 125 places in the Green League 2015!

Reducing energy consumption on the university estate, switching to clean energy, and monitoring the ethical standards of suppliers, are all ways that universities can rise up the ranks of the green league

- [Webchat June 11, 1-3pm: how can students help make their universities greener?](#)

Ben Powrie

UAL Strategic Objectives

To create a culture of social and environmental awareness in order to develop and integrate sustainable and ethical practice throughout all aspects of our life and work.

We will identify and pursue the distinctive contribution we can make towards carrying out our teaching, research and operations in a sustainable and ethically responsible fashion.
